Knowledge Exchange Network | “Ning” site

The screenshot shows a Mozilla Firefox browser window displaying the Ning site for GayNet-ReseauGai. The browser's address bar shows the URL <http://gaynet-reseaugai.ning.com/>. The page features a large banner with silhouettes of a group of men and the text "GayNet-ReseauGai" and "Gay Men's Health and Wellness / La santé et bien-être des hommes gais". Below the banner is a navigation menu with links for Main, My Page, Members, Photos, Videos, Forum, Events, Groups, and Blogs. The main content area is divided into several sections: a left sidebar with a mission statement in English and French, a "Members" section with smiley face icons, a "Latest Activity" section with two discussion entries, a "Welcome to GayNet-ReseauGai" section with "Sign Up" and "Sign In" links, and an "About" section with a smiley face icon and text stating "Canadian AIDS Society created this social network on Ning." The browser's taskbar at the bottom shows the start button, open applications (Inbox - Microsoft..., Quick Screen Cap..., GayNet-ReseauGa...), and the system tray with the time 2:50 PM.
